World development appeal

The Assembly urges church meetings to correspond with local Members of Parliament about the aid budget, in particular to request that HMG should give the UNCTAD target of 0.7% of Gross National Product in official aid; encourages churches to participate in the Europe '73 programme; and resolves that there should be an annual World Development Appeal, in the form of a One Per Cent appeal, made to individual members of the church and that the appeal should be organised by the Church and Society Department in consultation with CCWM and Christian Aid.

The Assembly expresses its sincere appreciation to Christian Aid for its provision of publicity and other material in connection with our One Per Cent Appeal.

Non-violent action

The Assembly commends the Report 'Non-Violent Action: a Christian Appraisal' (SCM Press) for study by church meetings, districts and provinces and encourages the Church and Society Department to explore further the methods of implementing the conclusions.

The Assembly resolves to send copies of the Report, 'Non-Violent Action: a Christian Appraisal' to the Prime Minister and the Secretary of State for Foreign Affairs, and urges HMG to implement the proposals concerning the training of the army in non-violent techniques, the training of volunteer reservists for non-violent peace-keeping operations, the increase in the number of the police and the strengthening of the role of the United Nations Organisation in mediation and peace-keeping.

Security

The Assembly commends the Report 'The Search for Security' (SCM Press) for study by Provinces.

Taiwan

The Assembly urges church meetings to acquaint their membership and local MPs with information concerning Taiwan, and encourages the Church and Society Department to continue with representations to HMG, urging initiatives to bring about an internationally supervised plebiscite in Taiwan to ascertain in what way the inhabitants wish to be governed in order that the status of the island may be legally determined.

Southern Africa

The Assembly encourages the Church and Society Department to explore further ways in which the church might express its Christian concern for Southern Africa, and to consult with the Department of World Church and Mission, and CCWM and the Investment Committee on this matter.

Housing

The Assembly expresses deep concern at the number of homeless people in this country, and calls upon its District Councils and local churches to examine the situation in their own locality, and then to take such measures there as they feel appropriate to express this concern.

World population

The Assembly welcomes the appointment by HMG of a Minister responsible for Population Affairs, and the establishment of a comprehensive Family Planning Service as part of the National Health Service.

The Assembly welcomes the initiative taken by the United Nations Organisation in designating 1974 as World Population Year, and urges HMG to play a full and constructive role, with the highest possible level of participation, in the UN World Population Conference in Bucharest in August, this year.

The Assembly encourages churches and individuals to study population issues and welcomes the proposed Study Kit on Population being prepared by the Church and Society Department.

Industrial mission

The Assembly commends the Statement on the Nature and Objectives of Industrial Mission to Synods, District Councils and the churches, for information and study, and urges them to find appropriate ways of recognising and supporting ministers who are engaged in industrial mission, and to find ways in which the insights learnt from engagement in industrial mission can be shared with other members of the church.

The Assembly encourages active participation by church members in Trades Unions, Employers' Organisations and other comparable bodies.

Investments South Africa

The Assembly, whilst recognising that there are several responsible attitudes towards investment

in South Africa, recommends the Finance Department, in cooperation with other churches and ecumenical organisations, to press for improvements in labour conditions for black and coloured workers in British firms which operate in South Africa and in which we have investments. With regard to future investment policy and bearing in mind the legal limitations the Assembly agrees that the general aim of financial advantage should be modified by positive and creative factors, enabling our investors to consider the investment of some funds in socially worthwhile projects which may not yield the highest financial return.

Recognising that more funds in the United Reformed Church are controlled regionally and locally than nationally, the Assembly urges Synods and Church Meetings to consider carefully and prayerfully how the funds at their disposal should be invested in the light of Christian social responsibility.

The Assembly sends its greetings to the Christian Institute in South Africa and assures the officers and members of our prayers and support at this testing time.

1975

Food

The Assembly, in the light of the present world food crisis, calls on:

- i) all congregations and Districts to give urgent attention to the crisis by supporting the Foodshare Campaign, through study and practical and political action;
- ii) all citizens to examine their life-style in the context of a world in which there are gross inequalities between rich and poor;
- iii) HMG to implement the proposals set out in the Foodshare Manifesto;
- iv) the Church and Society Committee to consult with appropriate bodies in the other churches with a view to the organisation of a National Day of Prayer and Fasting as one response to the World Food Crisis.

World development appeal

The Assembly asks that all churches will study the consultative document on world development to be circulated in the June Information Service with a view to sending comments to the Church and Society Department by the end of October 1975.

Ireland

The Assembly records its gratitude to those church leaders whose initiative led to a ceasefire in Ireland, trusts that the Constitutional Convention now assembling may be able to offer a way forward for all the people of Northern Ireland, and commends to the URC the report of the Consultation recently held between the representatives of the member churches of the ICC-BCC.

The Assembly asks all local churches and all members of the URC to continue in prayer for the churches and people of Ireland.

South Korea

The Assembly expresses its prayers and concern for fellow Christians in South Korea, commends the courage of the 59th General Assembly of the Presbyterian Church in the Republic of South Korea in its prophetic Declaration, and hopes that there may be a speedy restoration of human rights in South Korea, including the release of imprisoned church workers and others.

The Assembly urges HMG to intercede with the Government of the Republic of South Korea on behalf of imprisoned church workers.

1976

Age Action Year

The Assembly commends Age Action Year 1976 to the attention of the churches and expresses the hope that churches will help to emphasise the educational aspects of the campaign.

Investment South Africa

The Assembly encourages the Church and Society Department to discuss with the Finance and Administration Department questions raised by the possibility of investing in the Homelands in South Africa and to explore ways in which our own investment policies might reflect a concern for the development of such areas.

World development appeal

The Assembly welcomes the continuance of a world development programme based on political action, education and a financial appeal; encourages the Church and Society Department to cooperate with Christian Aid and the World Development Movement in the production of literature to promote such a programme; and urges churches to play a full part in helping their members to respond to the programme through study, action and financial commitment.

The Assembly approves the allocation to Christian Aid of 90% of all monies raised for the world development appeal for overseas projects and programmes, with the remaining 10% being allocated to the World Development Movement for its development education and political action.

Food

The Assembly encourages the churches to take part in a National Food Day on September 25 1976 by arranging appropriate activities locally, if possible with other churches and with groups such as Friends of the Earth, to focus attention on the need for changes in eating habits and food production in Britain, on the plight of the millions in developing countries who suffer from permanent hunger and malnutrition, and on the need for a major reorientation of international and national economic policies to overcome poverty.

Ireland

The Assembly notes that the British Council of Churches is about to launch an appeal for Ireland for money to help with community projects and with attempts to provide constructive alternatives to violence. The Assembly commends this appeal to local churches.

Christian Aid

The Assembly expresses its complete confidence in Christian Aid and strongly commends support of it to our churches.

1977

Ireland

The Assembly commends to all congregations the British Council of Churches Appeal Fund for projects in Ireland and urges continued prayerful support for all those who work of justice, peace and reconciliation in Ireland.

Sexual ethics

The Assembly draws to the attention of elders meetings and church meetings, the Report of the Sexual Ethics Working Party and urges them to initiate discussions of these important topics and to consider the pastoral responsibilities which arise.

Abortion

The Assembly commends the discussion paper on Abortion to Districts and church meetings and urges them to send reports on such discussions to the Church and Society Department so that the Department may be able to speak more effectively

for the church in any submission on future legislation.

Nuclear issues

The Assembly alerts congregations in areas where there is nuclear plant to the current debate about the potential danger involved in the development of such plant, and recommends that such congregations seek a meeting with their local Member of Parliament to discuss the issues.

Rhodesia

The Assembly welcomes the current diplomatic initiatives of the Foreign Secretary on Rhodesia as outlined to the House of Commons on April 19 1977, and expresses the hope that his discussions on the possibility of the United Kingdom and the United States co-sponsoring a conference to develop a clear timetable for achieving majority rule in 1978 will speedily lead to a just and peaceful settlement.

1978

Marriage

The Assembly approves the statement on 'The Christian View of Marriage' and the summary of United Reformed Church Practice in regard to remarriage after divorce, as set out in the Report. The Assembly requests Synods, either directly or through Districts, to initiate discussions concerning the Report on 'Marriage, Divorce and Remarriage' in order to determine in what ways the Province can assist those charged with pastoral responsibility in this field, but asks for reconsideration of the order of service of 'Prayer for release from vows' in consultation with the Doctrine and Worship Committee.

Nuclear issues

The Assembly welcomes the decision of HMG to hold an inquiry concerning the Fast Breeder Reactor and urges HMG to ensure that there are safe methods of waste disposal agreed before there is further expansion of this programme.

Racism

The Assembly endorses the Affirmation in the British Council of Churches statement on Racism and urges all members to make a public stand against racism in all its forms and in support of the reconciliation which is so integral a part of the Gospel of Jesus Christ.

Investment South Africa

The Assembly welcomes the EEC Code of Conduct for European firms operating in South Africa and urges HMG to ensure that there is effective monitoring of British Company performance by a Parliamentary Committee. The Assembly, while accepting that there is a case for continued British economic participation in South Africa, recognises that there are influential and responsible people in South Africa calling for withdrawal of investments, and therefore believes it to be imperative that British firms in South Africa should do all in their power to grant genuine bargaining powers to black workers. The Assembly encourages representations on this subject to firms in which we have direct interest, at national and local level, by committees or individual shareholders.

Gambling

The Assembly records its appreciation for the work of the Churches' Council on Gambling and in particular for the distinguished service of its Secretary, the Revd Gordon Moody, and welcomes the proposal to form a Council on Gambling to include a wider membership than the churches.

World development issues

The Assembly urges HMG to accept the proposals of Third World countries in the UNCTAD negotiations for a Common Fund to stabilise commodity prices.

This Assembly seeks the support of the BCC to bring pressure upon HMG to accept the proposals of the Third World countries for the Common Fund to stabilise commodity prices as set out in recent UNCTAD negotiations. It also seeks the support of the WCC to apply pressure on other dissenting Governments to accept the proposals.

One World Week

The Assembly commends One World Week to all local congregations and urges them to take initiatives to ensure that the programme receives full ecumenical support in their areas.

Human rights

- a) Assembly re-affirms its deep concern for the rights of every person under God and its distress that in many countries and sometimes our own, people are persecuted for their opinions and made prisoners for conscience sake.
- b) It welcomes the involvement of the Department of Church and Society in the

Forum for Human Rights now being established by the BCC and its contacts with Amnesty International and urges it to maintain its work in this field of human and Christian concern.

- c) It encourages individuals and local churches to take up particular cases where such rights are infringed, to study the circumstances and to give expression to their concern through prayer and action, whereby those who suffer can be helped and those who oppress can be persuaded to turn to new patterns of open and trustful government.

1979

World development appeal

The Assembly commends the annual World Development 1% Appeal to all member churches, urging them to present it to their own membership for individual response; and agrees that 85% of all money raised should be used for overseas development programmes through cooperation with Christian Aid, and that 15% of all money raised should be used in this country to finance development education, the promotion of the Appeal and political action for world development, including support of the World Development Movement.

One World Week

The Assembly commends One World Week 1979 to the member churches, urging them to use it as an opportunity for development education and ecumenical cooperation.

Nuclear weapons

The Assembly urges HMG to continue to negotiate, as a matter of urgency, for a comprehensive test ban treaty with regard to nuclear weapons; to continue to work for mutual and balanced force reduction in Europe; to press for reductions in stock-piles of nuclear and conventional weapons; to investigate the possibilities of redirecting some of our own arms expenditures into areas of social need at home and into world development projects abroad; to set up research projects into the use of unarmed units in civil conflicts and in certain other confrontations where at present armed units are used in default of any alternative being available.

The Assembly urges Districts and Church Meetings to study the issues raised by the UN Special Session on Disarmament and draws

attention to the Information Pack on the subject (published by the Society of Friends).

Investment South Africa

- a) The Assembly, recognising that the policy of constructive economic engagement with South Africa is not sufficiently effective in bringing about social, economic and political changes which are fundamental, and realising that the seriousness and urgency of the situation require more fundamental changes in such areas if an escalation of violence in Southern Africa is to be avoided, agrees that the possibility of disengagement should be considered carefully, recommends Provinces to make possible the study of the collection of Papers on Investment prepared by the Church and Society Department to summarise current research reports on the issues, and to consider the implications of the various options.
- b) Assembly requests the Officers of the Assembly to write to all banks in which the URC has shares to request them to halt loans to the South African Government and its Agencies.
- c) Assembly, in view of the statement made in November 1977 by the Chancellor of The Exchequer, Mr Denis Healey, giving an assurance that HMG intended to discourage investment by British industry in South Africa, urges HMG to implement such a policy, including the ending of export guarantees and credits for British exports to South Africa.

European elections

The Assembly urges its member churches to encourage their congregations to consider the important issues raised in the direct elections to the European Parliament and to play a full part in the election process.

URC Housing Association

The Assembly welcomes the proposal of the Presbyterian Housing Ltd to develop its work initially in London and the Home Counties and encourages it to work in close cooperation with the appropriate committees and agencies of the church, permits it to change its name to the 'United Reformed Church Housing Association Limited', with the understanding that being a Limited Company there would be no financial liability for the URC, and asks the Wessex, Eastern, Thames North and Southern Provinces, the Church and Society Department and the Development in New

Areas and Care of Existing Church Buildings Committee each to nominate a representative to serve on its Management Committee.

1980

Racism

The Assembly urges all churches to study the question of racism, both locally and nationally, using the publications of BCC Community and Race Relations Unit, and commends to all churches the CRRU Project Fund as a practical way of contributing to the creation of a truly multi-racial society in Britain.

Religious Education

The Assembly urges local churches and, where possible, District Councils to express forcibly to LEAs the need to

- a) maintain specialist RE staff in secondary schools and the option of RE as CSE 'O' and 'A' level examination subject;
- b) ensure that both primary and secondary schools contain staff who have received some training in RE;
- c) make provision of adequate finance, resources and timetable periods for RE (with a minimum of 5% of the timetable in secondary schools);
- d) enable Advisers to make clear time commitments to the needs of RE in County Schools;
- e) release teachers for full and part-time in-service training in RE to make up for any current deficiencies;
- f) appoint Standing Advisory Committee on RE to consider the development of agreed syllabuses and to provide for consultation with representatives of religious bodies within their areas.

Nuclear issues

Assembly requests the Church and Society Department, in collaboration with the BCC, to pursue urgently a study of the development of nuclear energy resources, with particular reference to the recommendations of the Massachusetts Conference on Faith, Science and the Future, and with a view to encouraging discussion of this issues throughout the Councils of the church.

Human rights

Assembly urges HMG to do everything within its power to secure the inclusion of the right of conscientious objection to military service in the

General Assembly Resolutions:

European Convention on Human Rights and similarly to secure the inclusion of such a right into any Charter of Human Rights which the European Communities may adopt.

World development issues

The Assembly welcomes the publication of the Brandt Commission's report, 'North-South: A Programme for Survival', as of great importance in the search for international peace and development and urges local churches to study it and to press their MPs to ensure that its analysis of the present world situation and its recommendations for action are given urgent attention by HMG.

Nuclear weapons

The Assembly, welcoming the publication by the BCC of the document, 'The Future of the British Nuclear Deterrent', and noting the resolution passed by the BCC Assembly in November 1979, urges HMG to allow for a period of public debate before making decisions about the retention of an independent British nuclear deterrent after the present Polaris missiles have become obsolete. The Assembly further urges churches to engage in discussion of the question raised in the BCC report and resolution, with a view to communicating their views to their MPs.

1981

Unemployment

The Assembly requests that Government to review the levels and conditions of the unemployment benefits for long-term unemployed people, believing these benefits to be inadequate in their present form.

Disabled people

The Assembly, in this IYDP calls upon;

- a) Church members to examine their own attitudes and responses to disabled people;
- b) Local churches to consider their provision for and partnership with disabled people and to share in study and action programmes with disabled people and their organisations to effect long-term improvements in community life, in access to public buildings, in transportation systems and in public education on the needs and aspirations of disabled people.
- c) that each local church should ensure wherever possible that it can provide easy

access for disabled people to all its facilities.

Racism Nationality

The Assembly expresses its opposition to the British Nationality Bill and urges HMG to withdraw it, and it calls upon churches to make their views known to their MPs; to work actively to combat racism; to contribute to the Project Fund of CRRU.

World development issues

The Assembly commends the mass lobby of Parliament on May 5 1981 to all the members of the churches and urges HMG to play a constructive and positive part in the preparation and outcome of the Mexico Summit of world leaders.

World development appeal

The Assembly welcomes the growing support for the World Development 1% Appeal and asks all local churches to commend it to their members.

Nuclear weapons

The Assembly believes that

- a) the continuing escalation of nuclear arms threatens the very security which the weapons are held to guarantee;
- b) the development and deployment of nuclear weapons has raised new ethical questions for Christians;
- c) the resources devoted to military expenditure of all kinds are desperately needed to tackle the world-wide problems of poverty, hunger, ignorance and disease;
- d) the time has come for a more resolute involvement of Christians in taking new initiatives for peace.

Therefore the Assembly calls upon all Christians, and every local church, to support the World Disarmament Campaign as one way of advocating the multilateral or unilateral approach towards disarmament, by signing the petition and encouraging others to do so.

Public expenditure cuts

The Assembly receives the substance of the resolution of the Mersey Province with regard to public expenditure cuts with appreciation and sympathy but remits it to the officers of the Church and Society Department for consideration and preparation of a revised form for the urgent consideration by the Executive Committee.

Falkland Islands

The Assembly endorses the resolution of the Church and Society Department dated 26 April 1982 on the Falklands dispute which was in the following terms:

'The Department

- deplores the invasion of the Falkland Islands by Argentinian armed forces,
- urges HMG to continue to seek every possible means for a diplomatic solution, particularly the use of the UN, in the hope that no further armed force is necessary,
- appreciates the difficult and dangerous duties being undertaken by the Special Task Force,
- calls upon all our churches to pray for those in positions of responsibility and leadership within the two nations of Argentina and the United Kingdom that peace may be established.'

In the light of the developing situation, the Assembly resolves in the following terms;

- i) the Assembly expresses its grief at the subsequent loss of life on both sides;
- ii) expresses sympathetic concern for the Falkland Islanders and prays that they may be enabled to live in freedom and security;
- iii) regrets the way in which the dispute has given rise to a dangerous mood of militancy between Argentina and Britain;
- iv) therefore urges HMG to continue to seek a peaceful and just solution to the dispute through the diplomatic channels of the United Nations Organisation.

The Clerk of Assembly moved, and Assembly agreed, that the resolution be sent to HMG, His Holiness the Pope; to the BCC, the Scottish Churches Council, the Council of Churches in Wales, the Irish Council of Churches; to the Churches in the Argentine and to colleagues in other countries and the media.

Unemployment

Assembly calls upon the leaders of our nation

- a) openly to acknowledge that even when the recession is over, high unemployment will persist,

- b) to enter upon discussion on the effects this will have on our national life, and to give urgent consideration to work sharing on a national basis,

Opportunities Policy in relation to ministers.

- b) This policy is not a statement of what the Church has already achieved; it is a declaration of the way it intends to move forward at all levels and in all aspects of its life within the limitations of its resources. In particular, it is an aid to appointing the most suitable people to all positions of responsibility within the church disregarding irrelevant considerations; it does not oblige the church as employer or otherwise to make appointments of people other than those most capable of fulfilling the responsibilities.

Assembly declares:

- i) The Church will behave as an 'equal opportunity organisation' and not discriminate on grounds of race, gender or disability.
- ii) The Church works to combat racism, sexism and prejudice against people with disabilities and is committed to positive action rather than containing the issues.
- iii) The Church is aware of possible barriers, for example to women, black people and people with disabilities, within the structures of the Church in ministry and other posts; this has to do with expectations, position, role and status.
- iv) The Church will therefore establish appropriate methods of monitoring the appointment, call, representation and position of women, black people and people with disabilities in the Church and take appropriate action where necessary.

Assembly

in the light of its call made in 1994 for moves towards the banning of nuclear tests as part of its endorsement of the nuclear Non-Proliferation Treaty; strongly deplores the resumption of nuclear testing in the Pacific region by France and calls upon the French government to reverse this decision; supports the recent appeals made on this matter by the Pacific Council of Churches, by our Council for World Mission partners and other churches in the region and by the World Council of Churches; calls on the British government to pledge that it will not resume any nuclear testing and will use its good offices to persuade the French government to reverse this decision.

Assembly acknowledges the revised programme Commitment for Life, as examined and endorsed by Mission Council, to be an authentic response of the whole United Reformed Church to God's call for justice for the poor of the world and therefore urges every local church to participate fully.

Sanctuary

Assembly, noting the concern of the Churches Commission for Racial Justice and in support of their statement, gives its full support to those in local churches and communities who feel constrained by conscience to offer sanctuary to individuals and families facing deportation, providing they are satisfied that sanctuary is a last resort and that at least one of the following applies:

Church & Society

- a) there is a well-founded fear of persecution;
- b) there is a serious threat to family life;
- c) there would be a basic denial of justice and compassion.

General Election

Assembly urges every local church to participate fully in the ecumenical programme of all-party constituency meetings at the next General Election.

Europe

The General Assembly accepts the Report of the Europe Task Group, and as a policy statement on the URC's involvement with Europe adopts the following principles:

- i) provinces should be the primary vehicle for developing and maintaining bilateral and local church partnerships within Europe on behalf of the United Reformed Church
- ii) the Conference of European Churches, the Leuenberg Fellowship and the European Ecumenical Commission on Church and Society should be the focus and primary means of assistance for our engagement with European ecumenical questions and programmes and the institutions of the European Union and the Council of Europe; and
- iii) calls upon the appropriate committees of the Church, nationally and in the provinces, to consider and to act on its recommendations (section 3), in particular concerning European visitors to Assembly, the provision of adequate funding for the URC to develop meaningful church partnerships at every level, and the provision of support for Provincial European Link Co-ordinators.

Hong Kong

The General Assembly, in the spirit of resolutions adopted in 1989, which were reaffirmed in 1992 by the Assembly Executive Committee, regarding the welfare of the peoples of Hong Kong in the period leading up to June 30, 1997, resolves:

1. to remind the British Government of its political and moral responsibility for the people of Hong Kong, with a request that the United Nations monitor the implementation of the 1984 Agreement;
2. to express its solidarity with the churches of Hong Kong, and especially the Hong Kong Council of the Church of Christ in China (our partner in CWM) in praying for

- a peaceful transfer of power which respects the dignity of all peoples;
3. to press for full British citizenship for those groups denied by the 1981 and 1985 Acts of Parliament; and to extend a welcome to those Hong Kong residents who move to these islands;
 4. to welcome the introduction of the pack of material on Hong Kong from CWM and the educational materials produced by the China Forum of the CCBI Churches Commission on Mission.

1997

Values in Education and the Community

Assembly

- 1 welcomes the serious attempt made by the Schools Curriculum and Assessment Authority (SCAA) to discover what values are commonly held in different sections of society and affirms the need to continue with this exercise;
- 2 applauds the efforts by many teachers and governors to promote such values within the ethos of their schools and colleges as they assist the development of children and young people growing up in a society which is often hostile to such values;
- 3 believes that, in the "promotion of the spiritual, moral, social and cultural development of pupils at school" as required under the 1988 and 1992 Education Acts, moral principles must be linked with spiritual and cultural education and therefore resists the suggestion that 'values' might be taught as a separate subject on the curriculum.
- 4 instructs Church and Society to pass on these views to the FCFC Education Committee, the government and the SCAA.

Jubilee 2000

Assembly

Endorses and commends the 'Jubilee 2000' programme of action to every local church as a model for a workable and acceptable solution to the problem of poor country debt; urges church members and adherents to sign – and to secure at least one additional signature for – the supporting petition being distributed in the Information Service; notes the link already made with Jubilee 2000 and the plans for significant support of the campaign through Commitment for Life; commends the British Government for their proposals on debt relief in recent years and urges them to press with more vigour for the adoption of such proposals within the International Monetary Fund and G7 nations, especially in relation to sub-Saharan Africa.

Human Sexuality

Assembly recognises

- a) the seriousness of the issues of human sexuality and their implications for acceptable behaviour and lifestyles among Christians; and
- b) the lack of agreement in the responses submitted to General Assembly by local churches, District Councils and Provincial Synods concerning aspects of the contemporary debate on human sexuality and the teaching and application of scripture;

and therefore

- 1 believes that these disagreements, though serious, must not be allowed to injure the unity and peace of the United Reformed Church;
- 2 encourages local churches, District Councils and Provincial Synods to apply with wisdom and sensitivity the pastoral practice and discipline set out in the Basis of Union and Structure of the United Reformed Church, in a way which respects the rights of personal conviction and which does not override conscientious decisions in these matters nor use such decisions as a reason for breaking the fellowship of the United Reformed Church;
- 3 calls on those who exercise pastoral care of members, elders and ministers in the Church to seek ways of ensuring that all those who experience rejection because of their convictions in these matters are sustained within the fellowship of the Church held together by Jesus Christ.

Assembly,
noting the requests made in a number of responses from local churches, District Councils and Provincial Synods for further time and space to reflect on these matters, asks Mission Council to arrange for further work to be done, ecumenically and in consultation with our partner churches through the World Alliance of Reformed Churches (WARC) and the Council for World Mission (CWM) where appropriate and possible, on

- a the nature of Biblical authority for the life of the church;
- b the relationship between the authority of General Assembly and the other Councils of the Church;
- c the matter of ordination and human sexuality;

and also to consider ways in which the Church may be assisted in reflection on the wider issues of human sexuality. To enable this process Assembly asks Mission Council to establish a timetable for these reflective processes and ensure appropriate representation on necessary consultative groups and working parties.

Assembly

- a) recognises
 1. that no candidate admitted for training can be assured of ordination until a call is issued and accepted with the concurrence of a District Council;
 2. that all decisions on candidature and on the calling of a particular minister involve seeking the guidance of the Holy Spirit and the weighing of the strengths and weaknesses of the candidate.
- b) declares concerning persons in a homosexual relationship that, during the process of further reflection and discussion set out in the previous resolution:
 1. no local church or pastorate is to be constrained to consider or accept such a person as their minister nor any District Council constrained to concur with such a call;
 2. Assembly will uphold a call to such an ordinand or minister duly issued by a local church with the concurrence of the relevant District Council(s) leading to ordination and /or induction;
 3. Assembly will also uphold the refusal of a local church to call as their minister a person who is in a homosexual relationship;

4. in view of these options, the fact of a homosexual relationship shall not be the ground for rejecting a candidate for ministry during the process of selection, assessment, entry to a college or course and ministerial training.
- c) resolves that in the case of a disagreement wherein a local church still wishes to call such a person when a District Council has refused concurrence, the relevant Synod, through an appropriate committee or commission, shall seek to secure agreement, failing which agreement the appeals procedure can be applied.
- d) instructs the Ministries Committee to produce guidelines for the application of this decision in the cases of non-stipendiary ministers.

General Assembly instructs the Officers of Assembly as a matter of urgency to form a Working Group to enable sensitive care of Districts, churches and individuals who feel pain and distress as a result of the passing of Resolution 19 and asks Mission Council to review the work of the group at its next meeting.

1998

Ageing

- a) Assembly welcomes and endorses the development by this joint working group of a strategy, outlined in the Book of Reports, which will:

 - iii) affirm the contributions made by older people.
- b) Assembly therefore instructs the Church and Society and the Discipleship, Stewardship and Witness Committees:
 - i) to enable increased access to information on the circumstances and concerns of older people and, through ecumenical action and partnership with appropriate bodies, to encourage study, debate and action on the issues of old age and of an ageing society, with particular reference to the International Year of Older Persons designated for 1999;
 - ii) to seek ways in which positive perceptions of old age and older people

may be reflected in the life and worship of the church.

- c) Assembly authorises the Equal Opportunities Committee to add appropriate references to discrimination on grounds of age (youth or old age) to its policy statements.

50th Anniversary of the UN Declaration of Human Rights

Assembly, noting that 1998 marks the 50th Anniversary of the United Nations Declaration of Human Rights,

- a) Gives thanks for the work and witness of the UN Human Rights Commission;
- b) Calls upon Her Majesty's Government
 - i) to ratify the first Optional Protocol to the UN Covenant on Civil and Political Rights, allowing individuals access to the UN Committee on Human Rights;
 - ii) to ratify the second Optional Protocol to the UN Covenant on Civil and Political Rights, committing the UK to a complete and permanent ban on capital punishment;
- c) Welcomes the move of Her Majesty's Government to incorporate the European Convention on Human Rights into UK legislation; and

Assembly, noting the findings of the Enquiry into the murder of Stephen Lawrence:

- a) urges every local congregation to mark Racial Justice Sunday (in 1999 September 12) as agreed by the Church Representatives' Meeting of the Council of Churches for Britain and Ireland and draws attention to the material for that Sunday published by the Churches Commission for Racial Justice;
- b) acknowledging that racism exists within the church, urges the officers of local churches, District Councils and Synods to give appropriate opportunity for discussion of these matters during 1999/2000;
- c) urges local churches to consider issues of racial justice arising in the communities which they are situated and to offer support to those striving for racial justice in local situations.

Middle East

Assembly, noting the continuing military action around the Gulf and the lack of progress within the Israeli-Palestinian negotiations, and in renewing its concern for the region:

- a) affirms that Jerusalem, as a holy city, should be accessible to the adherents of all the Abrahamic faiths and believes that

any settlement of the territorial claims of Palestinians and Israelis should honour the holiness and wholeness of the city as a shared city in terms of sovereignty and citizenship;

- b) looks for a fresh start to meaningful negotiations following the General Election in Israel and developments around May 4, and invites the British government to press with its EU partners for a clear role under the auspices of the United Nations in the peace process;

2001

Jobcentre Survey

General Assembly notes with concern that surveys of Jobcentres undertaken by local churches show that significant proportions of jobs available to unemployed people around the country pay below the National Insurance Lower Earnings Level, below the Income Support rate for a couple with two young children, and below the threshold for access to a Stakeholder Pension.

Assembly affirms:

- (a) the concept of social insurance as an important mechanism for providing people with security in unemployment, illness and old age and as a means of expressing the church's commitment to 'the common good';
- (b) the view of the Churches' Enquiry on Unemployment and the Future of Work that it is possible to provide 'enough good

work for all' and that government should make this a key policy aim.

Assembly calls upon local churches to work with the Church and Society Committee to raise these issues at local and national level.

2002

The new warfare

General Assembly, mindful that in recent decades military technology has developed substantially, that definitions and terminology for various acts of warfare have been evolving, and that the politics of conflict has moved into a new, post-Cold-War era, asks its Church and Society Committee to explore and prepare a report on the ethics of warfare for the twenty-first century.

The report should take account of:

- a) an understanding of terrorism, suicide bombing and state sponsored assassination;
- b) weapons of mass-destruction, including nuclear, chemical, biological and multi-kiloton (conventional) bombs;
- c) weapons which continue to cause death and suffering in a post-conflict era, e.g. land-mines, unexploded cluster-bombs, depleted uranium dust;

- d) the argument that a perceived threat is justification for a pre-emptive attack, or that 'regime change' is a legitimate objective for armed aggression;
- e) other matters germane to the concept and practice of 'Total War'.

In whatever methodology it adopts the Committee is encouraged to take account of past General Assembly resolutions and to work ecumenically and internationally.

The International Situation

This Assembly, noting the suffering, powerlessness and loss of dignity and hope endured by many people across the world, especially in situations of war, conflict, terror and repression, and that the responses to these situations can themselves be violent and extreme:

- Expresses its support for our partners throughout the world who are facing particular difficulties at this time;
- Welcomes the statements made by Mission Council and the Ecumenical and Church and Society committees, especially in relation to Iraq, Zimbabwe and the Middle East;
- Calls upon the Ecumenical Committee and Church and Society committees to enter into a dialogue with our partner churches in the USA on ways in which we can support one another as we witness to our nations promoting an alternative vision of peace and justice in the world today; and
- Encourages local congregations to make their own witness, promoting understanding, resisting violence and seeking justice for all God's people locally and globally.

Faith Schools

Regretting the lack of both 'faith input' and promotion of a religious worldview in some schools, Assembly:

- i) welcomes the contribution to British education of schools which seek to provide an ethos and religious teaching which promote good relationships in a pluralist society;
- ii) recognises that many of these schools have a religious foundation, including those schools linked with the United Reformed Church, and welcomes the example of best practice they can provide;
- iii) shares the concern of many people of goodwill about teaching in a minority of so-called 'Faith Schools' likely to promote religious or racial intolerance;
- iv) calls upon churches to seek links with local schools with the objective of nurturing friendship and understanding as the essence of community;

and calls upon churches to support Christian teachers, particularly those engaged in Religious Education, and encourage others to consider teaching as a vocation.

Faith Stance on the Global Crisis of Life

- World Alliance of Reformed Churches
Covenanting for Justice Process

General Assembly draws the attention of the councils and appropriate committees of the church to 'Faith Stance on the Global Crisis of Life', invites them (as a matter of priority) to find space to discuss and reflect on it, and instructs the Church and Society and Ecumenical Committees to collate responses to the document for report to the 2004 General Assembly.

Refugees and Asylum Seekers

(Racial Justice Committee Resolution)

- a) acknowledge the unequivocal call of the Bible to care for the stranger in our midst and to respond to the needs of strangers in our own neighbourhoods with compassion and practical friendship;
- b) seek to address our own attitudes towards refugees and asylum seekers with honesty and in ways that reflect the quality of our faith and commitment to our caring God;
- c) seek to live out the Gospel of Jesus Christ in relation to refugees and asylum seekers through challenging the selfishness and racism that their presence has exposed, and by resisting any attempts to make this racism socially acceptable, whilst being aware that honest attempts to do so may lead to ridicule by many in British society;
- d) to join with other Non-Government organisations in active local and national campaigning to further the above aims.

2004

Campaign to Double Aid and Make Trade Just

Commitment for Life

General Assembly

welcomes the continuing and significant growth in the number of local churches participating in Commitment for Life and the consequent increase in funds raised and campaigning activity; recognizes the personal effort in promoting the programme put in by advocates in each synod and the effective work of the Director and Programme Assistant;

notes that although there is a continuing focus on partners, through Christian Aid, in four countries, there is an increased and growing emphasis on campaigning for economic justice;

notes the closer relationship between Commitment for Life and the International Relations office and commends to churches the new leaflet produced jointly by both programmes;

agrees that the disbursement of Commitment for Life income shall remain at 75% going to our partners via Christian Aid, 10% for World Development Movement and 15% for Grants and Advocacy;

i) Views with deep indignation the Separation Barrier currently being constructed by the

Government of Israel in the Occupied Palestinian Territories.

- ii) Believes that the Barrier is causing profound social and economic problems for the Palestinian population as well as seriously hampering efforts to find a just and long lasting peace in the region.
- iii) Condemns unreservedly terrorist attacks upon innocent Israeli civilians but believes that the best way for Government of Israel to provide long-term security for its people is to engage in a peace process that will result in the end of the occupation in accordance with long-standing UN resolutions.
- iv) Calls upon the UK Government to use its influence to see that construction of the barrier is halted, that existing sections are dismantled and that confiscated land is returned to Palestinians along with compensation for any damage caused.
- v) Pledges itself to support the work of peace groups within Israel and the Occupied Territories and UK based advocacy groups, such as Christian Aid and EAPPI in their work in the Occupied Territories.

Assisted Dying

General Assembly affirms the report Assisted Dying, as encapsulated in the following statements:

- i) As Christians we regard all human life as being God given, and therefore precious; we believe that death is not the end and we have faith that there is a more perfect life to follow.
- ii) We recognise that there is a time to die and that there are circumstances in which it will be wrong to continue to provide treatment designed to prolong life.
- iii) We recognise that some palliative treatment for the terminally ill, makes the patient more comfortable and pain free, but can also hasten death. We believe this to be acceptable, as long as the primary purpose of the treatment is pain relief and comfort of the patient.
- iv) We could not support legislation that would empower medical staff to intervene in ways which deliberately seek to assist a patient to die. We would therefore oppose any change in the law to permit voluntary euthanasia or assisted suicide.
- v) We believe that a Living Will or Advance Directive which has been prepared by a patient of sound mind, can be helpful for carers and relatives; however we do not believe such a document should be used to facilitate a person's death.
- vi) We believe that additional resources are needed to provide more uniformly available and more high quality palliative care.
- vii) We recognise the valuable contribution made by carers. We express our prayerful support for those who work in, and promote hospices, and others who care, befriend and provide support for the dying.

Listed church buildings and Lottery funding

Having reconsidered its position on Lottery funding, General Assembly accepts, reluctantly, that some local churches will need to make application to the Lottery Fund to assist with the upkeep, repair and alteration of their listed church buildings and, in that respect, revises the advice contained in Resolution 20 of General Assembly 1995, which urged members and councils of the Church to disassociate themselves from the Lottery.

- e) committing the Church to speak prophetically, particularly through the work of the Joint Public Issues Team and the Close the Gap campaign.
- f) supporting work to highlight injustices against the poorest, including spending decisions, unfair taxation and misrepresentation of the poorest.

The Occupy movement

(resolution from National Synod of Wales)

General Assembly resolves:

- a) to listen collectively to the witness of the Occupy movement in the UK and worldwide, and especially for the Gospel resonances within what is being said, and to share our own Gospel insights to enrich and enliven this conversation through our varied communication channels;
- b) to encourage the Mission Committee of the United Reformed Church to engage wherever possible with this movement and other partners in a common search for a more equitable economic system;
- c) to resist all proposals for reform which target the poor, in the UK and overseas, to pay the price for the mistakes of the rich and to request the Joint Public Issues Team to monitor and respond appropriately to such policy reforms;
- d) to examine ourselves prayerfully and penitentially, our investment policies and our deployment and mission strategies as the URC, to see where the critique of the Occupy movement might rightly be directed at us;
- e) strongly to urge trusts, committees and local churches within the United Reformed Church to take this resolution into account

in taking decisions - both financial and otherwise.

2016

EU Referendum

On the 23rd June a referendum took place within the United Kingdom regarding the question of European Union membership. The majority of those who participated within this referendum voted for the UK to leave this union.

In the light of the UK's 2016 European Union membership vote, General Assembly:

- Recalls that the Gospel mandates us to respect all people, love our neighbour and offer hospitality to strangers. In light of the decision to leave the EU, and the hurt and anxiety that many people across our nations feel, it believes that the Church's responsibility now is to be a voice of love, hope, inclusion and compassion;
- Affirms the value of being a diverse and multicultural society and calls on local churches to continue to build bridges of understanding and trust with all parts of their communities;
- Celebrates the URC's Reformed European heritage and identity, and commits to ongoing ecumenical relationships with partner churches across Europe;
- Celebrates the contributions that nationals of other European countries make to the UK and commits to stand in solidarity with them at a time of uncertainty;
- Calls on local churches and members of the URC to challenge incidences of racism and hate crime and report them through the appropriate channels;
- Expresses concern and sadness about the deep inequalities within British society and calls upon URC members to lobby their elected representatives calling for a fairer society;
- Calls on all those in the URC to pray for wisdom and honesty for those involved in negotiating the terms of the UK's exit from the EU and for those who currently feel marginalised by the decision;
- Recognises that the URC is a Church in three nations and so calls upon the Synod of Scotland to engage in and contribute to the

public processes and ecumenical responses specific to Scotland which may emerge;

- Encourages members of the URC to continue to engage with the ongoing political and social debate on this topic and to challenge misinformation.

Environmental Policy

1. General Assembly adopts the Environmental Policy, and encourages all committees, synods and local churches to do their best to implement it.
2. General Assembly resolves to appoint a task group until 31 July 2022 in the first instance, of four persons, to be appointed by the nominations committee and funded from the mission committee budget, to monitor the United Reformed Church's progress toward meeting its commitment to reduce its carbon footprint, reporting to the mission committee.

The task group's specific remit shall be to:

- a) compile, produce or commission resources for worship and teaching related to themes contained in the Environmental Policy;
- b) consider the budgetary implications of implementing the Environmental Policy;
- c) commission a suitable individual or body to calculate the Church's carbon footprint, enabling a benchmark to be set against which future reductions in this footprint may be made; and
- d) liaise with the United Reformed Church investment committee, and to assist the relevant bodies within the United Reformed Church regarding decisions relating to the investment of Church funds in fossil fuels.

Nuclear Weapons

General Assembly, recalling the resolution on Trident adopted by Mission Council in 2006:

- a) Welcomes the current international focus on the humanitarian consequences of nuclear weapons;
- b) Remains opposed to the replacement of Trident and calls for the negotiation of a Nuclear Weapons Ban Treaty to bring about the elimination of all nuclear weapons;
- c) Mandates the mission committee to make this call widely known, working where possible with partner churches and organisations to achieve it;
- d) Urges church members to engage with their Member of Parliament on this issue.

Israel and the Occupied Palestinian Territory

The three resolutions on the situation in Israel and the occupied Palestinian territory (brought by Thames North, Wessex and Eastern synods) went to facilitation following discussion. The new wording drawn up by the facilitation group was brought before Assembly and passed recognising disagreement. The wording is as follows: "General Assembly instructs mission committee to explore and develop further our existing work around the issues of the Israel/Palestine situation with indigenous churches, interfaith and ecumenical partners and public authorities, including:

- dialogue and action;
- peace building;
- justice and security for all;

in order to enable synods, local churches and individuals to become more aware and to respond with informed prayer, grace and solidarity."

2018

Migrants in the UK

In the light of recent revelations about the treatment of some members of the 'Windrush generation' and other migrants, General Assembly:

- a) expresses its deep concern that the government's 'hostile environment' policies (now being referred to as the 'compliant environment') are leading to destitution, discrimination and distrust in society;
- b) calls for an approach to immigration that treats every individual, whatever their status, with humanity, dignity, respect and fairness;
- c) encourages church members to study the Joint Public Issues Team's new report on this subject, and consider taking the actions outlined in the report;
- d) directs the mission committee to work with others to make appropriate representations to government, to make the Church's concerns known.

2019 Mission Council

Ethical Investment – Climate Change

Mission Council, acting on behalf of the General Assembly, agrees that the ethical investment

guidelines on climate change issues be updated to reflect the following:

It is the wish of the United Reformed Church that those responsible for investment decisions on behalf of the Church and its Trust bodies should:

- a) not invest in fossil fuel companies whose total turnover is more than 10% derived from the extraction and/or supply of fossil fuels, including thermal coal, natural gas and oil
- b) complete the divestment required to fulfil this decision by the time the URC General Assembly meets in 2020
- c) widen their proactive role as investors, by engaging further with companies whose activities foster significant carbon emissions, for example the electricity and automotive industries, and producers of energy intensive products (e.g. cement)
- d) refocus the Church's investment portfolio by scaling up investment in renewable energy and clean technologies.

Mission Council further resolves to:

- e) encourage publicity of these actions and the rationale behind them, so that the URC can use its influence to advocate an end to the exploration for new oil and gas reserves, and the managed decline of fossil fuel production
- f) advocate to the UK government and others for action to foster the transition to a net zero carbon economy.
- g) encourage URC synods and local URC churches with investments to divest from fossil fuels, and reinvest in clean alternatives
- h) support and encourage churches and church members to reduce their consumption of fossil fuels, and so participate in a just transition to a zero-carbon future
- i) request the Resources Centres for Learning to ensure that those being prepared for service and leadership are cognisant of the global and spiritual context of the climate crisis.

Carbon Emissions Target

Mission Council, acting on behalf of General Assembly:

- a) urges the UK government to set a target and establish policies to achieve net zero

- emissions of greenhouse gases in the UK by well before 2050, and updates section 5.3(h) and 5.5(b) of the URC Environmental Policy accordingly
- b) makes a corresponding commitment that as a Church we shall strive to act urgently to reduce carbon emissions across the whole of Church life in line with this target, and updates section 4.2 of the Environmental Policy to give effect to this
 - c) calls on URC members, local churches and synods to support these commitments in word and in deed.

2020 Mission Council

Climate Emergency

Mission Council recognises the climate emergency and challenges all councils, committees and local churches to do everything possible to make URC events and activities eco-friendly, as urged by URC Youth Assembly.

Due to the Covid-19 Pandemic, the General Assembly for 2020 was cancelled, although some business was conducted online. Further items were carried over to the Mission Council meeting on 20-21 November.

Single-Use Plastics

1. Having recently recognised the climate emergency (Resolution 14, July 2020), Mission Council calls for all councils, committees, local churches and individuals to work towards eliminating the use of single-use plastics, given their significant environmental impact.
2. Mission Council notes with alarm the huge increase in the use of disposable items during the Covid-19 pandemic, especially single-use plastics. While there are occasions during this pandemic when it is impossible to avoid the use of single-use plastic items, their use should be kept to an absolute minimum. They should also be carefully disposed of in a way that minimises their impact on the environment.

UK Foreign Aid Budget

Mission Council:

- is concerned by reports this week that the government is preparing to break its manifesto pledge and abandon Britain's long-standing commitment to spending 0.7% of national income on international development;

- believes that a commitment to the poorest in the world should not be an optional extra but at the heart of our country's responsibilities, especially in the context of a global pandemic and a climate emergency;
- instructs the Moderators of General Assembly to make these concerns known to government in the strongest possible terms and encourages people and local churches to contact their MPs about this important issue.

2021 Assembly Executive

Conversion Therapy

Assembly Executive resolves:

- a) to support and adopt the definition of conversion therapy set out in the 'Memorandum of Understanding on Conversion Therapy in the UK'
- b) that the practice of conversion therapy is unethical and potentially harmful
- c) to call on all church members and ministers to refuse to offer or participate in offering conversion therapy in any form
- d) that no conversion therapy can take place in the name of the United Reformed Church
- e) to express support for proposals to ban conversion therapy, and urge that current proposals be strengthened to ensure greater protection for potential subjects of conversion therapy.

N.B. This resolution was in opposition to practices that seek to change, modify, or suppress a person's sexual orientation or gender identity.
